

I am a faithful listener and financial supporter of L-LOVE radio. There is only one station in our area playing contemporary Christian music. With the poor choices for families in our media today it would be a disgrace to loose such a priceless station. K-LOVE serves our community by giving Christians a station to listen to with the family. Our church youth group encourages each other and thier friends at school to listen to and be exposed to music that promotes high moral character. I am concerned that Georgetown, KY could loose K-LOVE if LPFM stations were given priority over these stations. Please do not do anything that would cause us to loose K-LOVE. Thank You.
